

Top 3 FAQ's

What is E-Learning Customization?

Customization may include company-specific content, assessments, policies and procedures, or even logos and/or animated characters. We can even incorporate simulated scenarios related to learner job tasks and even pre- and post- testing into our modules.

How large a project can you handle?

There is no limit. Our Expert team of Consultants has proven experience in adult learning principles, Flash design and development, graphic arts, and instructional design. We service Fortune 100 to Fortune 5000 companies across various industries.

How do you explain your pricing structure?

Our pricing structure is unique and the most competitive among other organizations in the e-Learning field. We evaluate your project and multiply the total project hours times our hourly rate and that's it! No additional costs for audio narration, royalty-free graphics, custom Flash animation, or any other project needs. It's all included at one flat cost and we work with ANY budget.

About Flash Tutorials

There are 3 ways to use Flash Tutorials to enhance your business:

- 1) Use tutorials to teach visitors how to "get around" on your web site.
- 2) Use tutorials to teach employees how to use a new software application.
- 3) Use tutorials as a tool to market your new product or service.

Please Note — All Flash Tutorials include Flash Intro and Audio Narration by a Professional Voice Talent.
