Top 3 FAQ's

What is E-Learning Customization?

Customization may include company-specific content, assessments, policies and procedures, or even logos and/or animated characters. We can even incorporate simulated scenarios related to learner job tasks and even pre- and post- testing into our modules.

How large a project can you handle?

There is no limit. Our Expert team of Consultants has proven experience in adult learning principles, Flash design and development, graphic arts, and instructional design.

What is your hourly rate?

Because our team works remotely across the U.S. GC has been able to charge the same hourly rate for 5 years straight. Only $50/hour! Project hours x hourly rate = Total project cost. No hidden fees! Call for your FREE quote today!

About Flash Tutorials

There are 3 ways to use Flash Tutorials to enhance your business:

1) Use tutorials to teach visitors how to "get around" on your web site.

2) Use tutorials to teach employees how to use a new software application.

3) Use tutorials as a tool to market your new product or service.

Please Note — All Flash Tutorials include Flash Intro and Audio Narration by a Professional Voice Talent.
